

Product Name: Agsure Ammonium Sulphate Adjuvant
APVMA Approval No: 84443/110423

Label Name:	Agsure Ammonium Sulphate Adjuvant
Signal Headings:	READ SAFETY DIRECTIONS BEFORE OPENING OR USING
Constituent Statements:	980 g/kg AMMONIUM SULPHATE
Mode of Action:	
Statement of Claims:	To be used with Glyphosate-based herbicides to minimise antagonism when tank mixing with flowable herbicides and to improve performance under adverse environmental conditions.
Net Contents:	20 kg, 25 kg
Restrains:	
Directions for Use:	
Other Limitations:	
Withholding Periods:	
Trade Advice:	
General Instructions:	GENERAL INSTRUCTION Agsure Ammonium Sulphate should only be used with non-selective herbicides as use with some selective herbicides may result in loss of selectivity and therefore crop damage.

	<p>Ammonium sulphate may be corrosive to metal parts of the sprayer. Thoroughly flush tanks, pumps and nozzles with water after use.</p> <p>This product is a completely soluble product. However, in circumstances of high humidity this product may 'cake' when exposed to the air. Potential problems may include handling problems after the product is opened, storage problems, and problems with dissolution or blockage of spray nozzles in boom sprayer/equipment. To reduce the potential for caking, any opened, unused product should be immediately closed to limit exposure to the air. In the event that the product has caked, ensure the product is fully dissolved before spraying to avoid the potential for nozzle blockage. Dissolving the product through the topscreen of the spray tank and ensuring the product is completely dissolved before spraying commences will eliminate the potential for nozzle blockage due to caked material.</p>

Resistance Warning:	
---------------------	--

Precautions:	
--------------	--

Protections:	<p>PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT</p> <p>DO NOT contaminate dams, rivers or streams with the product or used container.</p>
--------------	--

Storage and Disposal:	<p>STORAGE AND DISPOSAL</p> <p>KEEP OUT OF REACH OF CHILDREN</p> <p>Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Elders Rural Services Australia Limited recommends not storing opened product for longer than three months. Shake empty bag into spray tank. DO NOT dispose of undiluted chemicals on site. Break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.</p>

DIRECTIONS FOR USE

SITUATION	RATE	CRITICAL COMMENTS
Minimise antagonism to tank mixes with flowable herbicides. Improve performance under adverse environmental conditions.	800 g/100L of spray solution.	Half fill the spray tank with clean water and start agitation. Add Agsure Ammonium Sulphate to spray tank; ensure complete dissolution before adding herbicide. With agitation still running, add the required amount of flowable herbicide to the tank and mix thoroughly. Add the required amount of Glyphosate-based product and the remaining water, mix thoroughly. Add surfactant, if required, near the end of the filling process to minimise foaming. Always maintain adequate agitation during application and use tank mix promptly.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.
